Pre-Ledge Rock™ has a cut stone appearance that complements any outdoor setting.
Specifications

Pre-Ledge Rock™ is produced using a "no-slump" concrete mix, made under extreme pressure and high frequency vibrations. Unit pavers will meet or exceed the requirements established in the ASTM C936 (standard specification for interlocking concrete paving units). Requirements of this standard include an average compressive strength of 8,000 psi, average absorption no greater than 5%.
